Market Value of Your Household

Report Legend:

Household Snapshot: Is a summary of your entire household (managed and reporting assets) change in value and the household performance compared to common market indices.

Market Value of Your Household:

Provides an asset class breakdown from prior period to current period.

1. Managed assets only. Non-managed assets in your brokerage accounts ("reporting assets") are not included in this calculation.

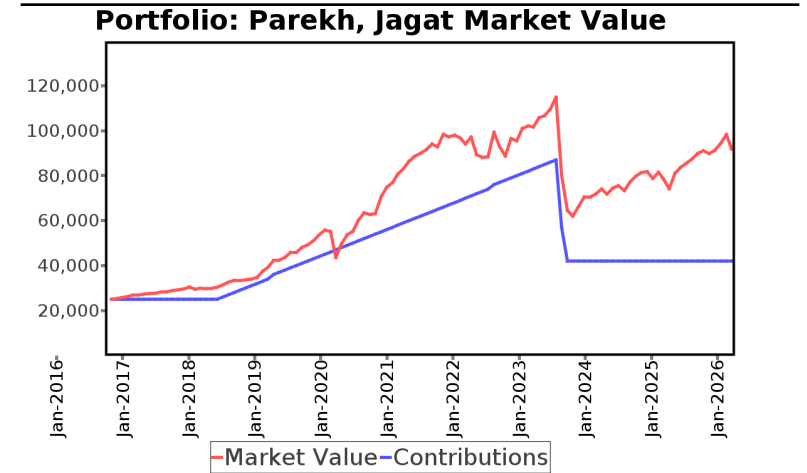

2. Benchmark performance is inception-to-date for households with an inception date in the current calendar year.

Portfolio Summary

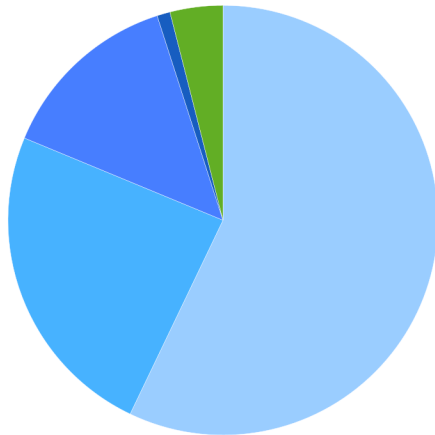

Activity at a Glance

	Reporting Month	Year to Date
Beginning Value	\$98,645.04	\$92,463.93

Disclosures

These reports are for informational purposes only. Past results do not guarantee future performance. All investments involve risk, including loss of principal. Further, the investment return and principal value of an investment will fluctuate; thus investor's equity, when liquidated, may be worth more or less than the original cost. The reports are intended only to assist in financial planning and do not supersede confirmations and statements received from the custodian as source documents for income tax purposes. In order to ensure that all account transactions, holdings and values are correct and current, Empower Advisory Group, LLC urges you to compare our firm's statement with the statement you receive directly from your qualified independent custodian, Pershing LLC. Please contact us immediately if there are any discrepancies.

Please consult with your tax advisor for tax matters relating to this account. As such, the data in the reports has the following disclosures:

- The data in these reports has not been audited.
- The information and market prices contained in these reports are based on data received from the custodian, pricing services, and other sources that are believed to be reliable; however, this information has not been independently verified, and therefore its accuracy cannot be guaranteed.
- Your holdings are based on information available as of the reporting date. Expenses may not reflect the payment of any applicable taxes.
- YTD Index returns are for the calendar year being reported.

Benchmark- The data is provided for illustrative purposes only to show how a client's account performed relative to the benchmark. Client portfolios may contain some, but not all, of the securities that comprise the benchmark. As such, client performance may deviate from the benchmarks depending on the allocation of client assets and length of time invested. In examining account performance clients are cautioned to consider other factors including relative risk, time horizon, and individual risk tolerance among other factors.

S&P 500 - The S&P 500 is market-value weighted index; each stock's weight in the index is proportionate to its market value. The 500 stocks are chosen for market size, liquidity, and industry grouping, among other factors. The S&P 500 is designed to be a leading indicator of U.S. equities and is commonly used as a proxy for the overall market. It is meant to reflect the risk/return characteristics of the large-cap universe.

Please inform your advisor of any changes in your financial situation or investment objectives, or if you wish to modify or impose a reasonable restriction on your accounts. Please contact your advisor if you would like to request a current copy of the firm brochure ADV Part 2A. Empower Advisory Group, LLC is a registered investment advisor.
